

The Enemy Lay in Wait but the Lord Sealed the Work
A Love Message

Following Dr. Hunt's tour of the various Bahamian Islands, the Lord showed that He was pleased with the mighty work so much so that He called His people (both head and body) to enter into His rest. The work, however, was not fully complete and the enemy lay in wait, seeking to bide his time and remerge at a later date. Even in the rest that God called for, Dr. Hunt was called to remain vigilant and had to undergo great suffering in his body that we might rest.

The Christ of God's vigilance allowed him to see the enemy hiding, poised to return when the opportunity arose, and he did a quiet work of deliverance. The evidence of this deliverance work was the writing and distribution of a financial report submitted by the brethren in the Bahamas. Recall that the Lord has shown that if we submit to him perfectly in a single area – the area of our finances – his mercy is such that all other areas of our lives will be covered and made right in short order. Once the financial report came out, it showed the submission of His people to His Word pertaining to finances and it sealed the completion of that work. As a result of that work coming to completion, Dr. Hunt's suffering was lifted and he was able to physically reengage in his Saturday tennis ministry with Pastor Dudley Carter.

Dr. Hunt's suffering ushered in the breakthrough evidenced by the financial report, in addition to allowing the body to receive his rest, bringing forth big and little miracles manifestly. "Thy right hand has dashed in pieces the enemy" imparts that this is the essence of the miracle – any thought the enemy had to reemerge was shot down. The ministry is now at a different level and it is by way of events shown in this testimony.
